

YALE CYBERSECURITY AWARENESS

Be Your Home's Secure Online Shopping Expert

Cybercriminals are lurking everywhere trying to steal your valuable information. While you may be up to speed on many of their ploys, people in your life may not know as much as you do. One simple and proactive step is to share what you know with those that don't.

Who are 3 people in your life that could benefit from knowing more about shopping online securely?

Choose 3 tips to share with these 3 people

- Don't Reuse passwords
- Don't use the same passwords on different sites
- The best passwords use a passphrase: I'mgoingtoDisneyWorld!Yeslam!*
- Consider using a password manager to keep track of all your personal passwords
- Boost security by adding Multifactor Authentication (MFA) to your Gmail Account
- The safest way to pay for purchases is with a credit card (not a debit card or Venmo)
